

Title : Management of Demolition

Aim : To provide delegates with an understanding of the risks associated with demolition work and how such risks can be managed.

Objectives : By the end of the training delegates will :-

- Understand the regulations and guidance relating to demolition.
- Have an appreciation of the demolition process including techniques and sequencing and the risks involved.
- Know how to establish a safe system of work.

Duration : 1 Day

Timing : 09.00 – 16.00 inclusive of break periods

Delegates : Site managers / supervisors responsible for demolition work

Tutors : Safety Trainers with inputs from local senior manager and safety manager

Delegate / Tutor Ratio : Max 15:1

Evaluation : Through a combination of :-

- Delegate input and discussion during the course
- Test paper at end of course
- Post course questionnaire
