

Fire Safety for Managers

At IOSH, we know that the best way to achieve safety and health training success is to get people fully involved, having fun and learning by doing. We want to get delegates really thinking about what they're learning – and having the confidence and enthusiasm to put it into practice when they're back at work – so that everyone notices the difference.

Fire Safety for Managers is at the cutting edge of fire safety training for managers and supervisors. You'll find a practical programme, full of step-by-step guidance, and a sharp business focus. But you'll also find that the content engages and inspires your staff – critical to getting the message embedded across the whole organisation.

Why Fire Safety for Managers?

Fire Safety for Managers is designed for managers and supervisors in any sector, and any organisation worldwide, who require an awareness of fire safety. They won't suddenly become fire safety experts – but they'll get up-to-speed on the practical actions they need to take, and gain the knowledge and tools to tackle the relevant fire safety issues they're responsible for. Importantly, Fire Safety for Managers makes a powerful case for fire safety being an integral part of day-to-day management and business.

What does the business get?

- Peace of mind from training that's designed and quality-controlled by IOSH, the Chartered body for safety and health professionals
- Flexibility – the programme can be delivered flexibly so that it suits your business
- Efficient and effective learning – fire safety basics are covered in a single programme
- Globally-recognised, respected and certificated training for your managers and supervisors

- Memorable and thought-provoking facts and case studies from across the globe help drive the points home over the whole course.

Each module is backed by crystal- clear examples and recognisable scenarios, and

summaries reinforce the key learning points
